

D

60 / 100
OVERALL

WHAT WE FOUND

Significant exposure was found. Prompt re-mediation is strongly advised.

THE FOUR AREAS WE ASSESSED

F

Email & Web Exposure

How well email and public sites resist spoofing and eavesdropping

D

Device Health

Age, support status, and hygiene of computers on the network

A

Network Exposure

Risky services and open doors visible inside the network

—

Microsoft 365 Identity

Not assessed in this scan

WHAT WE RECOMMEND ADDRESSING FIRST

HIGH

Publish an SPF record

Email & Web Exposure | Quick win

Fails: [CISA SCuBA MS.EXO.2.2v1 \(SPF\)](#)

HIGH

Add a DMARC TXT record

Email & Web Exposure | Quick win

Fails: [CISA SCuBA MS.EXO.4.1v1 \(DMARC\)](#)

HIGH

TLS chain failed validation for pcc2k.com

Email & Web Exposure | Moderate effort

HIGH

Investigate 9 outlier devices

Device Health | Moderate effort

This summary distills a detailed technical assessment. We would welcome a short call to walk through the findings and a prioritized plan to close the gaps above. A full technical report is available on request.
